

ONEBURRIS

THE BURRIS LOGISTICS ENTERPRISE

Since 1925, The Burris Logistics Company is a family-owned and operated logistics provider offering partnerships for end-to-end supply chain management. As an enterprise, our three brands offer dedicated solutions that feature their unique strengths. We work hand-in-hand with you to identify your business needs, allowing you to focus on what you do best.

When you combine our three operational brands as ONEBURRIS, Burris Logistics, Honor Foods, and Trinity Logistics become a complete solution for shippers, growers, carriers, distributors, and retailers across many industries.

Burris Logistics provides direct-to-consumer fulfillment for e-commerce, custom distribution, temperature-controlled warehousing, and more. Our partners trust us to store their products safely, and well-known e-commerce brands know that we can deliver safely to their customer's doorsteps. **Honor Foods** specializes in foodservice redistribution of grocery, frozen, and dairy foods from quality brands. Value adds are flexibility and responsiveness, allowing distributors to order precisely what they need. **Trinity Logistics** is freight brokerage with a personal twist. Their people-centric team brokers freight using over 70,000 carriers across shipping lanes nationwide, and they personally manage it with people and technology every step of the way.
